

HARSH KUMAR TULSYAN

Customer Success Manager | SaaS Product Operations | Finance & Accounts

Bengaluru, Karnataka, India | +91 89440 96080 | htulsyant2016@gmail.com | linkedin.com/in/harsh-tulsyant-3ab03023b | English, Hindi

PROFESSIONAL SUMMARY

Customer Success Manager with 7+ years of combined experience across SaaS customer success, operations, finance, accounting, taxation, MIS reporting and client coordination. Currently supporting RentOK customers across property-management workflows including onboarding, tenant and room data, rent-cycle setup, collections, settlements, e-KYC/agreement issues, reports and product escalations. Strong business understanding of what customers need from a SaaS product: clear workflows, accurate financial data, fast issue resolution, adoption, renewals and measurable user value. Since Feb 2026, also supporting product-management activities such as requirement notes, bug triage, user-feedback mapping, PRD/Markdown documentation, sprint backlog inputs, UAT feedback and product journey improvements.

CORE COMPETENCIES

Customer Success & Client Onboarding	SaaS Support & Escalation	Sales Support & Renewal Coordination
Product Feedback / Bug Triage	PRD, User Stories & UAT Feedback	Property & Tenant Data Management
Rent, Dues & Collection Workflows	Settlement & Ledger Review	MIS Reporting & Excel Analysis
TDS, GST & Statutory Support	Accounting & Financial Closing	Client Training & WhatsApp Handling

PROFESSIONAL EXPERIENCE

RentOK | Bengaluru, India

May 2025 - Present

Customer Success Manager

- Manage post-sales customer success for property owners, operators and staff, ensuring smooth adoption of RentOK workflows across onboarding, operations, billing and reporting.
- Support sales and renewal conversations with strong product knowledge, workflow demos, query handling and account-level coordination for onboarding, closures and renewals.
- Configure and validate property setup, tenant profiles, room/bed inventory, renting terms, deposit details, rent-cycle logic, rent generation and report accuracy.
- Resolve and escalate issues related to collections, dues, security deposits, refunds, settlements, passbook/ledger, receipts, e-KYC/agreement, notifications, bank linking, bulk uploads and reporting.
- Conduct live product training and doubt-clearing sessions for owners, operators and staff; coordinate WhatsApp/user-group communication at scale, including 2,500+ users.
- Since Feb 2026, convert customer pain points into feature notes, bug reports, user stories, PRD/Markdown documents, sprint backlog inputs, UAT feedback and workflow documentation.
- Contribute to PMF and product-journey discussions by mapping pan-India/South India market feedback, customer-support insights, pricing/process gaps and end-to-end user-experience issues.
- Coordinate with support, product and technical teams while guiding support execution for faster resolution, stronger adoption and customer retention.

Shubsan Hospitality Services LLP | Bengaluru, India

Jan 2024 - May 2025

Accounts Manager

Overall association: Jun 2021 - May 2025 | Industries: Real Estate, Hospitality, Manufacturing and Food

- Prepared project budgets, projected cash-flow analysis and management reports for hospitality and real-estate operations.
- Handled TDS workings and filing through Winman, statutory dues, payroll, expenses, banking coordination and compliance support.
- Analyzed financial data to support decision-making, revenue management, cost control and operational planning.
- Assisted in financial closing, MIS reporting, statutory/internal audit requirements and management reporting.
- Supervised junior accounting staff and coordinated with internal teams, auditors, management and clients.

Shubsan Hospitality Services LLP | Bengaluru, India

Jun 2021 - Dec 2023

Accounts Executive

- Maintained day-to-day accounting records and supported finance operations using Tally, ERP systems and office tools.
- Assisted senior team members with reconciliations, documentation, reporting, compliance tasks and special assignments.
- Supported office processes with timely communication, ownership and learning-oriented execution.
